Acumatica
The Cloud ERP

Construction Edition

A complete construction lifecycle solution

> "With Acumatica, we have a unified voice, a single source of truth."
>
> – Joel Sisto, CEO, IOC Construction

A Holistic Construction Solution from Bid to Closeout

Simplify operations, reduce costs, and deliver construction projects more profitably. Acumatica Construction Edition empowers small and midsized general contractors, mechanical-electrical-plumbing (MEP) professionals, specialty trades, home builders, and heavy civil contractors with a complete, born-in-the-cloud construction business management solution.

Acumatica gives your business the ability to thrive in a rapidly evolving world. With a mobile-ready platform, embedded AI for actionable insights and automation, and unified financial, operational, and field workflows, Acumatica is a scalable, flexible, and modular platform. Its adaptability ensures seamless support for your growing business needs—whether you're expanding into prefabrication, service management, or other ventures.

As the next generation of construction professionals steps in, Acumatica supports them with a mobile-first, AI-driven platform to boost efficiency, enhance profitability, and eliminate the frustrations of outdated ERP software.

Empower Everyone with Role-Based Dashboards, Seamless Collaboration, and Intuitive Navigation

Connect on-site field operations with the back office. The combined power of AI and mobile technology, along with configurable workflows and immediate access to project and company data, transforms a smartphone into a construction tech hub in your pocket.

Construction Executives

- Drive profitability
- Set financial goals
- Track budgets and expenses
- Real-time insights

Project Manager

- Maintain the scope of work
- Track job costs and changes
- Oversee compliance and safety
- Report on progress

Job Site Labor

- Real-time mobile access
- Add, edit, and submit RFIs
- Send daily field reports
- Annotate drawings and photo logs

Purchasing & Procurement

- Facilitate material purchases
- Manage project inventory
- Schedule drop shipments
- Communicate material needs

Equipment Manager

- Schedule project equipment
- Handle equipment maintenance
- Coordinate with procurement
- Maintain equipment safety records

Estimating Lead

- Takeoff successful projects
- Create competitive bids
- Analyze material pricing
- Manage equipment

Project Accounting

- Analyze project budgets
- Customize financial reports
- Maintain bank balances
- Report on sales and project success

Service Management

- Schedule and track appointments
- Monitor resources in the field
- Generate invoices from service orders
- Give customers access to support cases

Service Technician

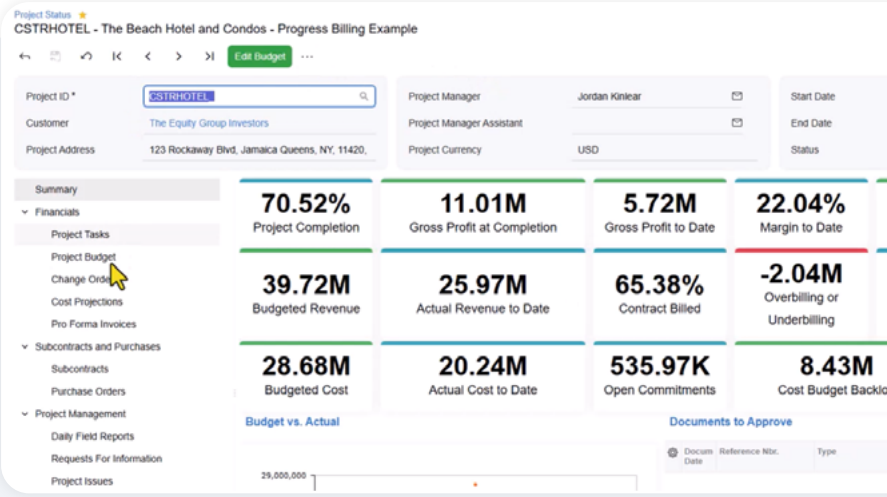

- View service call details via mobile app
- Submit time and expenses
- Get real-time appointment updates
- Enhance productivity via collaboration

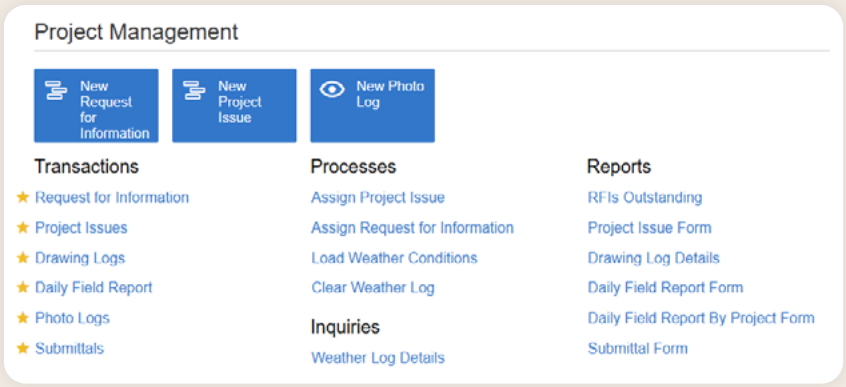

"Acumatica has made my life easier by having the ability to easily build dashboards on whatever metric that I would like to see."

– Aasha Cunningham, Director of Accounting and Administration, Phoenix Renovation and Restoration

Construction Financials

Streamline your financial operations with a comprehensive solution that grows with you. Use the Construction 360 dashboard to quickly view project success metrics. Accelerate cash flow with automated billing, and boost profits with budget visibility. Simplify diverse operations with multi-entity and multicurrency capabilities.

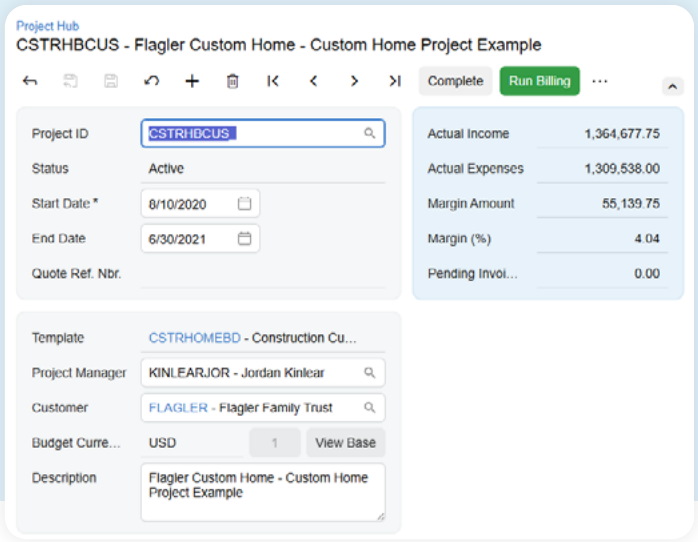

Project Management

Gain full project insights with seamless data flow between office and field.

Extend native project management features, such as safety surveys, markups, and job site inspections, with advanced JobPlanner tools designed for mature companies.

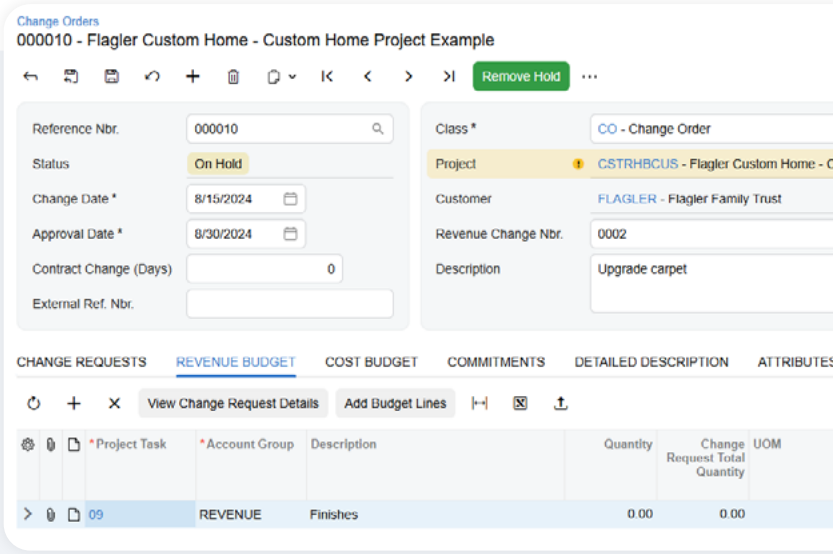

Job Cost Accounting

Manage AP workflows, from entering an invoice through approval routing and payments. Seamless billing driven by powerful project costing includes labor, material, equipment, and overhead costs. Code transactions to a single project, multiple projects, or a combination all in a single document. Assess project performance and ensure accurate revenue recognition with WIP reporting.

Change Order Workflows

Take control of change management with automated commitments and change orders to control cost overruns. Link drop-ship workflows to change orders for greater process efficiency. Streamline change management across multiple projects. Support unit rate changes, retainage, and cost-only changes with ease.

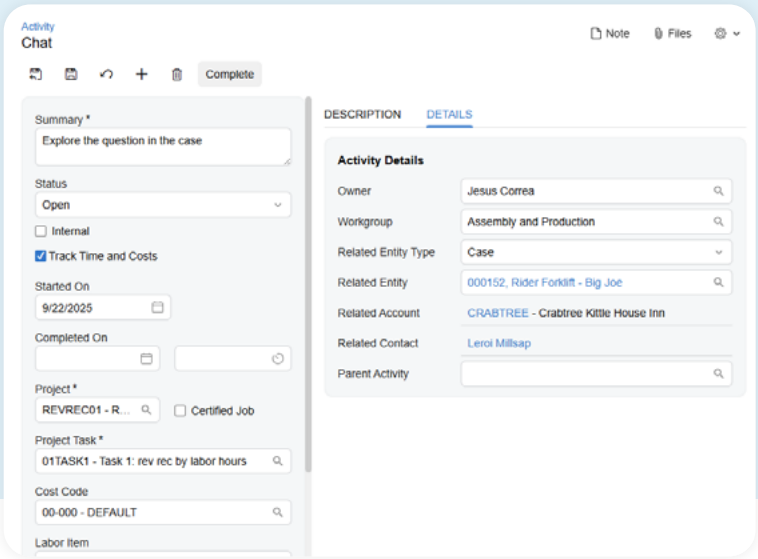

Service Management

Optimize your service operations by creating appointments and assigning the right resources. Use the calendar board to manage technicians' schedules, ensuring productivity and customer satisfaction.

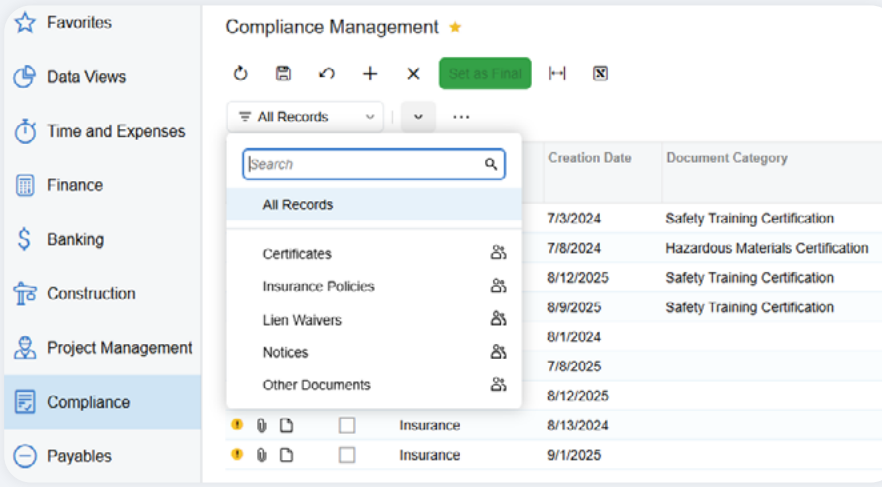

CRM

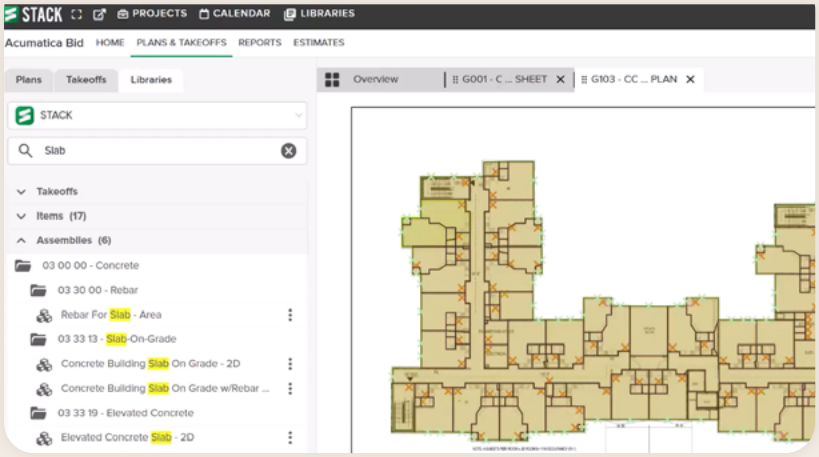

Capture marketing, sales, billing, finance and customer data in one solution. Gain visibility into support cases from request to close. Customer insights at your fingertips gives you analytics about project profitability.

Compliance

Seamlessly manage lien waivers and insurance certificates. Provide status updates, expirations, and alerts to staff and suppliers. Generate automated compliance documentation to ensure compliance expectations are met.

Takeoff and Estimating

Streamline project takeoffs, craft smarter, more competitive bids, and ensure precise cost tracking—including billing markups and cost changes—all while maximizing preconstruction efficiency through our strategic partnership with Stack.

"Acumatica as a system is allowing us to become a more process-based organization, to scale at whatever rate is most appropriate, and in a way that's prudent, profitable, and ultimately beneficial to our staff and our customers."

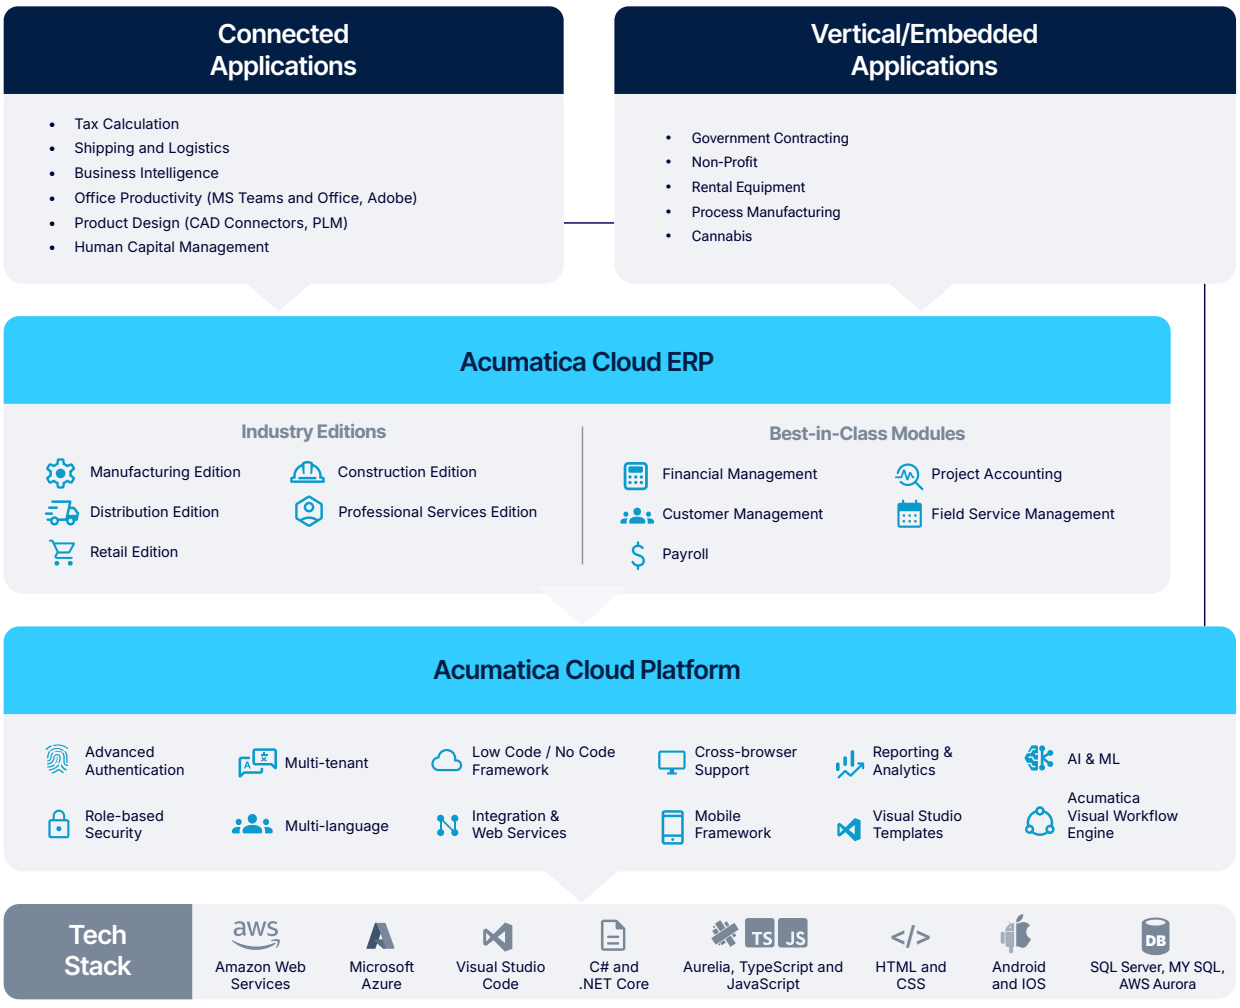

– Andrew Pistorius, CFO, Mid-States Companies

The Adaptable Acumatica Cloud ERP Platform

The Acumatica Cloud ERP platform is built on the world's best cloud and mobile technology, providing the tools business users need to reimagine an interconnected world.

The architectural framework and application development platform leverage new technologies with user-driven feedback, empowering business users to tailor the system with role-based security and low-code and no-code customization tools for a personalized ERP experience. Developers can easily customize and extend the application to meet unique business and industry requirements.

Acumatica allows users to modify workflows, rearrange screens, customize reports, build dashboards, and tailor the system. Transform your business, collaborate across departments, and prepare for growth with a business management platform that adapts to your evolving needs.
